

Why ask for??

OEX Reman

OEX Reman is a premium product produced in a Tier one OEM facility with the highest level of ISO certifications. OEX Reman offers Diesel fuel injectors for the newer diesel fuel systems, such as Delphi E3, Delphi F2P and Cummins XPI fuel injectors

Applications available:

- Volvo/ Mack MP7, MP8, D11, D13
- Paccar MX13
- Cummins ISL, ISX15, X15
- Volvo CE off Highway

How OEX Reman stands apart from the competition

When you choose OEX Reman you will receive an OEM product. This will include *newly generated Injector trim codes*. This will ensure the engine runs smoothly and more importantly with optimal efficiency. When you Choose OEX Reman your engine will operate more efficiently increasing fuel economy, decrease the aftertreatment regens, increasing the life of the costly

emissions system. Our goal is to assure the end user that only the highest quality parts are used to repair their equipment.

Warranty:

OEX Reman product comes with a Nationwide 1,000,000-mile 12 month parts and labor warranty. **YES, parts and labor!!!**

OEX offers these products in six pack kits to ensure that the replacement is done correctly the first time. These kits come with the components needed to do the repair as the OEM intended. The kits will include fuel connectors, Injector cups oring seals and hold down bolts.

OEX Reman has a strategic goal to align itself with only premier distribution partners throughout North America. This will ensure seamless and efficient distribution.
